MINING, BUSINESS AND STOCKS

UNWATERING OF THE CONGOR MINE

Manager G. G. Hail Says the Task Undertaken Recently Will Soon Be Accomplished.

SPEAKS OF BINCHAM'S ACTIVITY

Few People Realize What is Going on -Inquiry for Property-Leasers After Ground.

Manager G. G. Hall of the Congor mine of Bingham is in from camp, where he has been having an interesting time in the effort to unwater that property. The work was undertaken about two mouths ago, shortly after the directors met and authorized him to purchase the necessary pumps and get the boilers under steam.

To a representative of the "News," Mr. Hall stated during the day that he feels certain the worst is over and that he will soon have the underground workings so they can be entered and the task of cleaning them out inaugur-

"Few people realize the amount of "Few people realize the amount of work that is being done in Eingham at the present time," said Mr. Hall. "One must first visit the camp to fully appreciate what is going on there. New faces are seen in the camp every day and there is a great deal of enquiry made for mining property. Those who do not wish to buy are seeking leases and a good many who have secured them are doing very well too."

BLAIR PROPERTY BONDE D. Famous Silver Peak Mine in Nevada Will be Opened Again.

A correspondent of the Tonopah Miner at Silver Peak, Nev., says:

"Mark B. Kerr, the eminent mining engineer of San Francisco, has been greatlined to examine the holdings of the Blair estate in this camp. The property comprises some 20 patented claims, including the famous Drinkwater mine, which in the course of its existence has yielded eeveral million dollars. Since the death of Mr. Blair this mine, one of the biggest in the country, has been lying idle and during the last decade has been the subject of bitter litigation between the Blair helrs and Mr. Manchette, a formar lease and bondholder. Although this sult is not yet finally decided, the

give clear title, for they have recently bonded the property, at a figure not made public, to a syndicate of custern capitalisis formed by Oscar A, Turner of Mizpah mine fame. heirs must feel assured that they can

of Mizpah mine fame,
"It is for this syndicate that Mr.
Kerr is thoroughly examining the merits and possibilities of this great mine
from every point of view. He has
been hard at work for the past four
weeks, with four able assistants,
among them Charles Turner, the brother of O. A. Turner and manager of the Coe mine at Grass Valley, and ex-pects to finish his task about Sept. 4, when he will return to San Francisco by way of Tonopah."

SOME COMSTOCK HISTORY.

Don Maguire of Ogden Tells How Sutro Tunnel Was Started.

When the miners of the great Com stock were going down into considerable depth the expenses of drawing stock were going down into considerable depth the expenses of drawing and cooling was enormous; a certain Adolph Sutro, began to work on a tunnel scheme obtaining a promise of a royalty of \$2 per ton for all the ore that would pass out of the mines after a given time. He began his work over in the valley east of Mount Davidson and, having obtained money in Europe for the prosecution of the work, in a few years he carried forward the work for several miles and tapped the great lode under Virginia. City.

Draining and ventilation at once were perfect but it had taken Mr. Sutro too long to complete his tunnel as the best parts of the bonanza were worked out above the level when his

as the best parts of the bonanza were worked out above the level when his workings reached the Comstock lode. It was, however, of great value in subsquent workings as it enabled mine owners to avoid the expense of pumping and ventilating the ground that previously demanded great outlay for these items.—Don Maguire in an article in August Mines and Minerals, Scranton, Pa.

BIG CREEK DISTRICT.

Idaho Mining Camp Will Soon be Made Accessable by a New Road.

A correspondent writing of the Big Creek Mining district in Idaho, says the tremendous possibilities of that region can be fully realized only by a personal visit to this marvelous region.
A close inspection of its wonderful ore bodies, its enormous ledges carry-

ing such astonishing values as has been lately demonstrated by the returns from developments, and the natural advantages of good timber and excellent water power, combine to form a nining field unequalled by any in the For years its inaccessibility kept it practically unknown; and it remained the home of the elk, the bear, the

Rocky mountain sheep and numerous kinds of smaller game, until with the advent of the Thunder Mountain exitement it leaped into prominence.
Today, the mining world is hearing daily of new developments in the won-derful camp, destined to become one of the greatest producers yet discov-

One of the finest mountain roads in the west is being rapidly pushed to completion in order to enable the Big Creek mine owners to carry in their machinery. As soon as this can be ac-complished, every mountain side in the district will resound with the noise of the stamp mil, the shrill scream of the whistle of sawmills, and the dull roar of dynamite blasts from far and

Mining men, representing all sections Mining men, representing all sections of country, unanimously agree that the grade is one of the best ever seen, and shows a wonderful piece of engineering skill on the part of Engineer Lucke; while the contractors are to be corgratulated upon the excellent work they have done and are still accom-

At present, they are working on both At present, they are working on both sides of Eik summit in opposite directions, and at the same time working from South Fork of Salmon river towards the Big Creek district. All of which means the road will be com-

UNCLE SAM SHIPMENTS. During August Tintle Property Marketed

Thirteen Cars of Ore.

The Uncle Sam Consolidated Mining company of Tintic is in the market to-day with five cars of crude ore and two ara of concentrate, representing the August output.

Luring the month the mine reported at the samplers with nine cars of crude

Taken Under Advisement.

In the federal court yesterday afternoon, arguments were heard by Judge Marshall in the matter of dissolving the injunction in the case of the Ivanthe Mining company vs United States Mining company, and taken under ad-visement. Judge Ogden Hiles repre-sented the plaintiff and Judge Dickson the defendant.

American Flag Annual.

The annual meeting of the stock-holders of the American Flag Mining company held yesterday at Park City, the old board of directors was re-elected. Capt. T. P. Singiser is president and treasurer: R. G. Brooks, Scranton. Pa., vice president; E. B. Palmer, seretary; George P. Holman and George H. Rathman, the latter of Sloux City, La. directors.

i., directors.
After the meeting the stockholders present made an inspection of the new hoisting plant, which went into com-mission the beginning of the week,

OF A RAILROAD.

Mines of Camp Have Been Developed to the Point That Would Justify One.

OPERATORS HAVE HAD TROUBLE

In Getting Teams-Congestion of Ore At Columbus Not Yet Relieved-The Aibion Mine.

The need of railroad facilities to handle the output of the mines of Alta are daily growing more apparent. The fact is, the camp has enough business to justify the Rio Grande going ahead without delay in the rebuilding of the branch line to Wasatch and extending it on to at least Tanner's Flat where the mill of the Continental Alta company is located.

Possibly early in the next year this will be done as there is a movement on foot to invite the company to send its engineers into the district to gather data relative to the extent of the ton-rage on which the camp can be relied. The Alta companies now sending their over towards the valley smelters are still suffering for a lack of teams, yet the condition has been somewhat relieved by the valley farmers who, relieved by the valley farmers who, having been bury with the harvesting of their crops, are now putting in their spare time in hauling ore from the Wasatch camp. But more teamsters can find employment if they want it. The congestion of crude ore and concentrate at the Columbus Consolidated has not yet been removed and at the Continental Alta it has been with a great deal of difficulty that he has been able to keep even with production, Yesterday 24 teams were loaded up with ore and sent down the can-

d up with ore and sent down the can-

The Albion management has not commenced shipping but is keeping up its campaign of exploration with much zeal. Occasional shipments are made from other properties in the camp, but the great bulk of the tonings is com-ing from the Columbus and Contin-ental.

The Albion will probably be equipped with mill facilities next year and with the City Rocks mine sending its ores to market the present output of the district ought to be practically doubled.

has been sold through the instrument-ality of M. L. Buckley of Butte, with whom was associated John A. Riley, Buckley is said to be the field repre-sentative of Senator W. A. Clark,

The regular quarterly dividend of the Daly-West Mining company was posted yesterday afternoon, and will be paid on the 15th inst., the company's books closing on the 10th inst. The amount of the dividend is 60 cents a share, or \$108,000.

The meeting of the stockholders of the Utah Copper company, at which it was proposed to increase the capital stock of the company and to authorize the directors to negotiate a loan of \$3.000,000, did not take place at Jersey city yesterday on account of the injunction arising out of the complaint filed in the district court in this city on Saturday last by Vice President of the Company Col. E. A. Wall. The meeting, after being called to order, was adjourned until today.

The Greene Convolidated, says an ex-

der, was adjourned until today.

The Greene Conselidated, says an exchange, produced a little under 5,009,500 pounds in July the shortage being due to smelter interruptions. August will show between 5,500,000 and 6,000,000 pounds. The cost of treating the second grade ores is being materially reduced and it is hoped to bring the cost of copper from this source down to a lavel with the cost from higher grades. No copper for September delivery was sold until during the last week and therefore the present high price will represent immediate profit. The management expects soon to deliver copper to the consumer at a cost of 9½ cents. to the consumer at a cost of 9% cents. Mr. Greene is said to be unassailably in control. There are 5,200 stockhold-

UNUSUALLY WEAK.

New York. Sept. 6 .- The irregular novement of prices at the opening reected the unsettled opinions of operaers in stocks. There was a jump of 54 Delaware & Hudson. Hide and Leathr preferred rose 1% and Illinois Central, "exas & Pacific and Republic Steel show good fractional gains. Canadian Pa-fic was conspicuous among the losers ith a drop of 1% and Union Pacific ran off 4. Reading opened unchanged and after a fractional advance reacted again to below last night.

The stock market weakened all around and there were a number of severe decities in which the grain carriers and metal stocks were conspleuous. Selling was on a large scale but was largest in a few prominent stocks. United States Realty decined 4. Canadian Pacine 25, and Colorado Fuel, New York Central, St. Paul, Union Pacific, Southern Pacific, Texas Pacific, Amaigamated Copper, Smelling, United States Steel preferred and several others i to 18. New Haven gained 3 and Enameling preferred 2 points. Subsequently support for Reading which eventually carried it 1½ above yesterday's close had very little effect on the general market and that stock reacted over a point. The stock market weakened all around

general market and that stock reacted over a point.

Prices gave way again and touched a lower level than before all around, but the principal pressure was against some of the metal stocks. Amalgamated Copper, Smelting and Tennessee Coal lost 24 and 25. Colorado Finel 2. Union Pacific and United States Steel 1. Northern Pacific dropped 3. St. Paul preferred 24. Northewestern 24. Union Pacific Mail 142, and American Woolen 184. Stocks which had shown some earlier resistance yielded, including Atchison, Illinois Central, Baltimore & Ohio and Ontario & Western, which lost 1 to 144.

Bonds were heavy at noon.

Little support was evident sutside of Reading and the market sank gradually lower, Central 5 New Jersey felt, 4 points, Illinois Central. Atlantic Coast Line, Brooklyn Transit 2, and Louisville & Nashville, Locomotive and American Car 1 to 15. Reading was ruling a point above vesterday's final at 1 o'clock the fist was quiet and steadier.

Heavy unloading was resumed, even Reading being forced down from 121.

Heavy unloading was resumed, even Reading being forced down from 121 to 187a, Values of other stocks which had been consistently weak all day dropped off rapidly. The chief declines were canadian Pacific and Northwestern 25, Union Pacific Amalgamated Copper, Smetting Broocklyn Transit and Metropolitian Street Railway 254624, Southern Pacific New York Central, Pennsylvania and Sugar 2. General losses ran well over a point.
